

Acciaio

TECHNICAL DATA

Mounting:

Wall or ceiling mounting with clips

Body:

Zinc plated powder painted steel sheet. Colour grey RAL7035

Endcaps:

Die-cast aluminium painted RAL7035

Reflector:

Specular aluminium, parabolic shape

Electrical class: I

Main supply:

230V/50Hz

Description

ACCIAIO is a steel sheet zinc plated body, die cast aluminium heads lighting fixture.

The screen, which is made of clear toughened glass, is firmly sealed to the steel body by means of silicone gaskets.

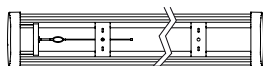

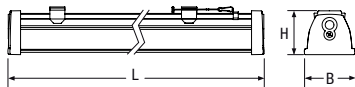

This allows a very high mechanical and technical resistance that places acciaio overall performance well above the market average.

ACCIAIO is available in single and twin fluorescent T8 and T5 lamp versions.

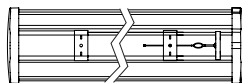

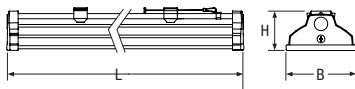

Narrow and concentrating beam versions available in 49W and 80W T5 are perfect for high ceiling installation (above 6m).

Special features

Resistance against mechanical shocks and chemical agents, low energy consumption due to excellent efficiency, easy mounting and installation, easy conversion of standard fittings to emergency luminaires, 3 years warranty

1x luminaire

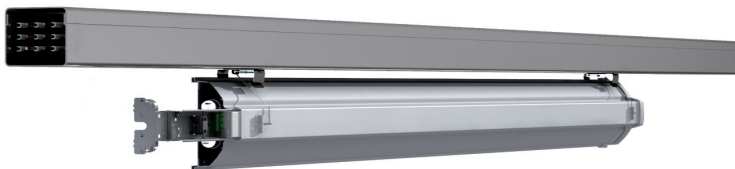

2x luminaire
